Alldatasheet is...

Back in 2003 , ALLDATASHEET was constructed to help Engineers to find datasheet from Vast volume by faster and more effective way.

Since then , We've only focused on Technical Development for Better Use of Global Users. Thanks to the effort , We became the most Popular and Powerful site that Users want to search their Datasheet in JAN/2008.

Since we became the most popular site, we do our best to provide better services to users. Visitors has been increased day by day and now most of engineers and electronic people visits our site to search for their need of datasheets.

We always do our best for utmost satisfaction of users.

About Alldatasheet

ALLDATASHEET is the biggest online electronic component datasheets search engine.

- Contains over 20 million semiconductor datasheets.
- More than 30,000 Datasheets update per month.
- More than 330,000 Searches per day.
- More than 15,000,000 Impressions per month.
- More than 5,700,000 Visits per month all around the world.
- More than 3,290,000 Unique Users at Alldatasheet.

(As of October 2009)

How Alldatasheet get datasheets

We have two main process to get datasheets

1. Find datasheets ourselves what user wants

Many of users want new electronic components datasheet.

We search ourselves for new electronic components datasheet and updates them at Alldatasheet to satisfy need of users.

Also update datasheets what user asked us to find for them.

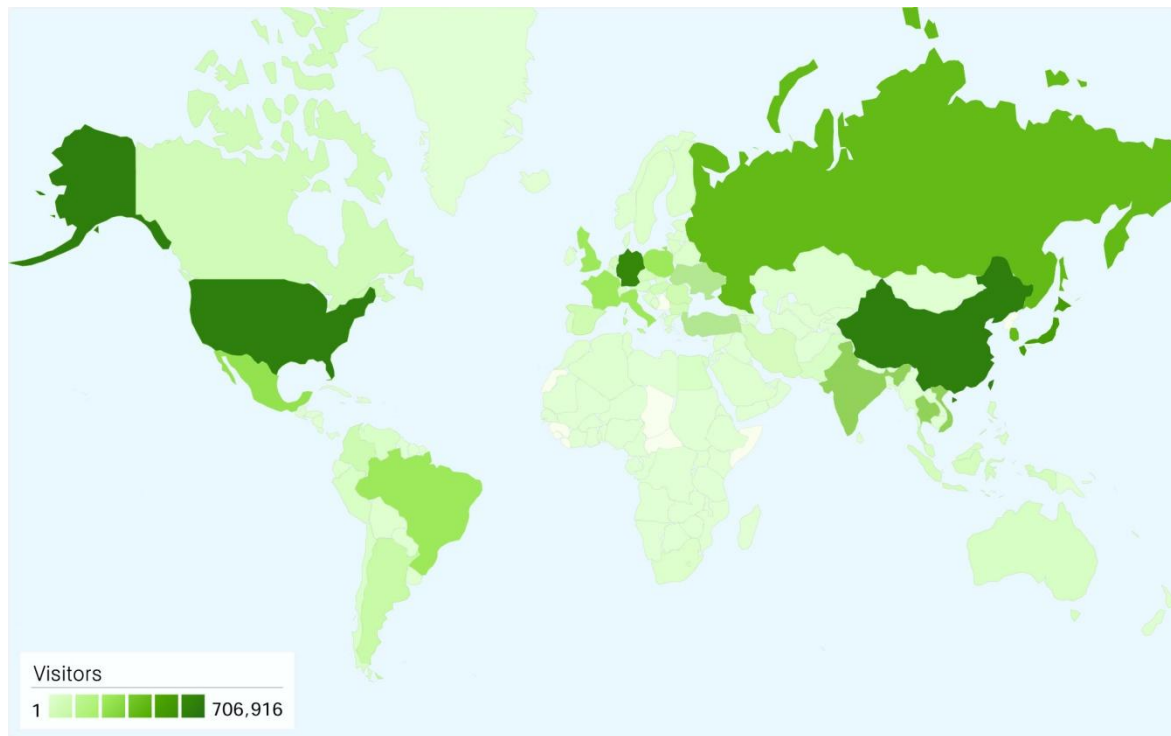

2. Contact from Electronic Components Manufacturer

After we became popular in datasheets, many electronic components manufacturer request me to update their datasheets at Alldatasheet for their product users.

Now we contains over 680 manufacturers datasheets and will increase by requests from manufacturers.

Alldatasheet Visitor's Information

Top 10 Countries of Alldatasheet Visitor

224 Countries user visits Alldatasheet over the whole world.

Research data on October 2009

Alldatasheet's visits has been counted over 5,700,000 Visits from 224 countries All over the world.

In the continental result of visitors, Americas, Europe and Asia is taking over 98% of total visits. Africa and Oceania take less than 2% of total visits.

- More information on the next page -

As the Map beside, United States and China is the most visited country and Germany, Japan, India, Russia, South Korea, Brazil, Mexico and Taiwan is listed at Top 10 Countries of Alldatasheet Visitor.

Above 10 countries are well developed countries in Electronic components and Semiconductor.

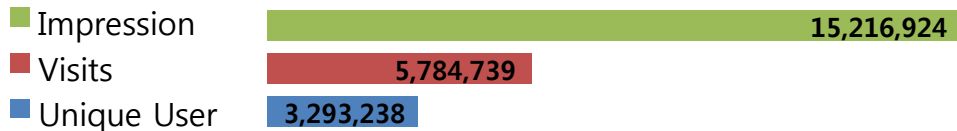

All the results are based on October 2009.

Alldatasheet Visitor's Information

Alldatasheet Visitor's Information by Continent

Alldatasheet Visitor's by Continent

- Alldatasheet Total

- Visitors by Continent

Continent	Impression	Visit	Unique User	Unique User (%)
Asia	5,755,224	2,306,050	1,383,604	38.98%
Europe	5,154,199	1,945,380	1,150,543	31.90%
Americas	4,032,949	1,401,947	707,210	27.55%
Africa	164,774	80,447	27,302	0.82%
Oceania	73,257	36,715	16,675	0.51%
Not Set	36,521	14,200	7,904	0.24%
Total	15,216,924	5,784,739	3,293,238	100.00%

Research data on October 2009

Visitors Research Data in October 2009, Alldatasheet's Total Impression is over 15,000,000 and Total Visits counted more than 5,700,000. Total Unique User of Alldatasheet is nearby 3,300,000.

Alldatasheet has world-wide users and many of Alldatasheet users are working in engineer & engineering management or design & development.

- More information on the next page -

As you can check from the 'Visitors by continent' table, Asia has over 1,383,000 Unique Users and Europe and Americas have over 1,150,000 and 707,000.

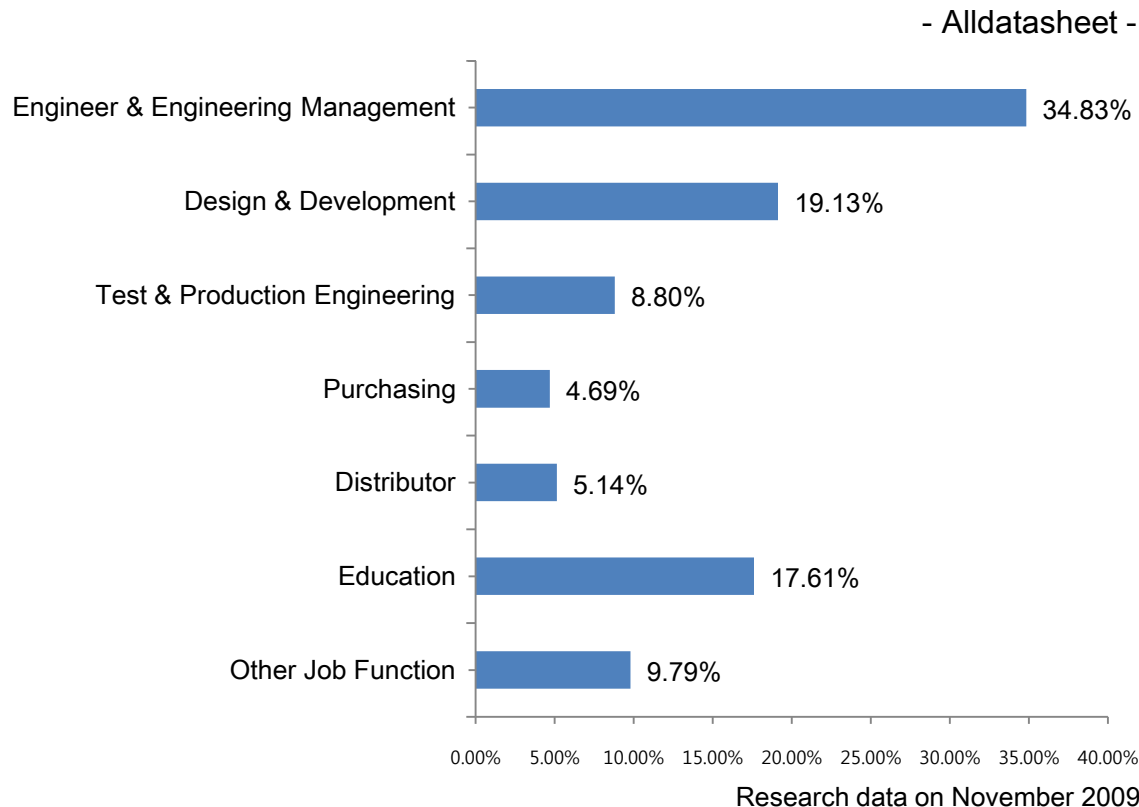

Asia, Europe and Americas take over 98% from Total Unique Users.

Alldatasheet visitor has been increased more than 20% during one year.

Alldatasheet Visitor's Information

Alldatasheet User's Job Function

What is Your Job Function?

Alldatasheet main user's Job Function is Engineer & Engineering Management and this job function takes nearby 35%.

Design & Development takes 19% and Test & Production Engineering takes just below 9%.

Above three job function in all related Engineers and cover 63% from total job functions.

More than 90% of users are included in the Semiconductor and Electronic components fields of industry.

Alldatasheet is well-known as public web-site and has many relations with education.

Students and Professors are using Alldatasheet in their daily study, project and other work in the university.

Alldatasheet is the most famous datasheet search web-site in the world and do the best to satisfy Users and Partners.
